

**St. Joseph's College, Department of Social Work and
School of Social Work, University of North Carolina, Wilmington**
INTERNATIONAL CONFERENCE
**“IMPLICATION OF SOCIAL WORK PRACTICE IN
THE GLOCAL WORLD”**

14th and 15th December 2017
St. Joseph's College Auditorium, Bangalore

ABOUT THE DEPARTMENT OF SOCIAL WORK

The Department of Social Work in St. Josephs College was established in the year 2005. The Department is committed to the pursuit of social work campaigns to improve the quality of life of the downtrodden. The Department looks for individuals who inherently possess a commitment to bring about positive change in society and provides them with the right amount of training and orientation to fulfill their deeds in the most effective manner. The academic program is rigorous so as to enable students with an appropriate attitude and knowledge to effectively address social problems in the world.

The BSW program establishes the foundation graduates need to effectively address the social problems of today's world. The MSW program offers an integrated curriculum, which weaves together classroom and field experiences. A well trained faculty shall always be present to assist the student and best guidance is provided on how to bring about social change.

**ABOUT THE SCHOOL OF SOCIAL WORK, UNIVERSITY OF NORTH
CAROLINA, WILMINGTON**

Our Masters in Social Work Program is a clinical program committed to preparing graduates for a career in assisting individuals, families, groups and communities in therapy, case management and advocacy for clients. We are one of only 13 MSW programs in the U.S. that concentrates only on clinical social work. Students work together in cohorts of no more than 25, allowing the personal attention and intensive clinical training they need to be successful. Students get the opportunity to intern at various agencies in the Wilmington area, where they will work one-on-one with clients, families, children, elderly and communities. Internship settings include schools, nonprofit agencies, hospice, military bases, addiction treatment centers, etc.

In addition to our core classes, we also offer certificates in addictions, gerontology and other disciplines, as well as opportunities to study abroad and participate in global social work. Social work licensure is recognized in all states, allowing great mobility and opportunities for

graduates. All programs in the School of Social Work (SSW) are accredited by the Council on Social Work Education.

THEME OF THE CONFERENCE

The theme clearly says that there is definitely scope for the implication of social work practice in the glocal world in which we live. The profession itself calls for an approach of reaching beyond, extending to the unnoticed. Hence the focus is always from the local grass root to the global bottom up level. There are many incidences in which what appears to be a global problem can be resolved at the local level; while a local one needs the global attention. Be it community development, medical or psychiatric social work, welfare of the weaker sections, in the human resource and development, human rights and life skills education, any field for that matter, implication of social work practice is the need of the hour in addressing every challenge and prospects to further the profession. Therefore, this International Conference aims to show case the issues at the glocal level and aims to intervene with the Social Work Approach.
